

PIPE UNIONS

ANKA© pipe unions are designed for a number of pipe work installations around pumps, tanks, dairysheds, industry and irrigation. With it's unique design and by using a high

quality industrial plastic/glass-fibre reinforced nylon, means that they can be used in place of traditional metal fittings, with the advantage of being non-corrosive.

- FEATURES**
- Strong Design
 - Quality Materials
 - Non-Corrosive
 - High Pressure
 - Full Flow

Available Pipe Union Sizes

- APU 20mm ($\frac{3}{4}$ inch)
- APU 25mm (1 inch)
- APU 32mm ($1\frac{1}{4}$ inch)
- APU 40mm ($1\frac{1}{2}$ inch)
- APU 50mm (2 inch)

Materials

Body: Glass Fibre Reinforced Nylon

O Ring: Nitrile Rubber

Maximum Working Pressure:
16 bar (1600 kpa - 230psi) @20°C
